

Lampada tavolo

GARCIA – R54066101

incl. 1x SMD, 1W · 1x 15lm, 3000K

- **Interruttore**
- **Cambia colore RGBW**
- **Batteria Ricaricabile**
- **IP44**
- **Solare**
- **Luminosità non regolabile**
- **Connessione USB-C di ricarica**

If the GARCIA solar light can do anything, it is shine colourfully! Thanks to the integrated RGBW colour changer, the luminaire creates an atmospheric ambience and inviting light accents in your home. The solar panel on the lamp allows the light from the sun to be captured and converted into electricity, making the table lamp an energy-saving and flexible lighting alternative. The integrated battery of the GARCIA can also be charged via USB-C connection. Due to the protection class IP44, the table lamp is protected against splashing water and is perfectly suitable for your outdoor area. Due to the white plastic design, the light is optimally reproduced and the luminaire fits easily into any indoor or outdoor area. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.

Costruzione materiale

Plastica · Bianco

Dimensioni prodotto
