

# FUSIBILI NEOZED E DIAZED SERIE "D"

## NEOZED AND DIAZED FUSES SERIES "D"

### Descrizione

Il corpo dei fusibili Diazed serie "D" è realizzato in steatite ad elevata resistenza agli sbalzi termici e dinamici. L'elemento fusibile è formato da una lamina in rame appositamente dimensionata e le capsule in ottone nichelate sono montate a pressione sul corpo del fusibile.

### Description

The body of Diazed fuses, series "D", is made of steatite and is highly resistant to heat and dynamic shocks. The fuse element is made of a properly sized copper foil. Nickel plated brass caps are pressure mounted on the fuse body.

### Norme - Standards

CEI 32-1  
CEI 32-5  
IEC EN 60269-1  
IEC EN 60269-3
